"Innovative cross-border and transnational activities"

Vilanova de Cerverira 13.07.2019

Comune di Osilo

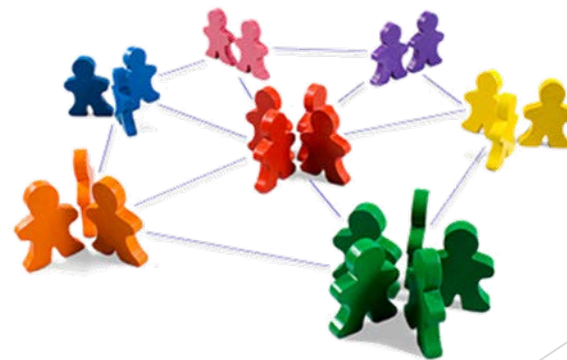

Project "A wireless network"

Por Sardinia 2007-2013
Axis III Social inclusion
Line 2 Youngsters
Contrast to youth discomfort

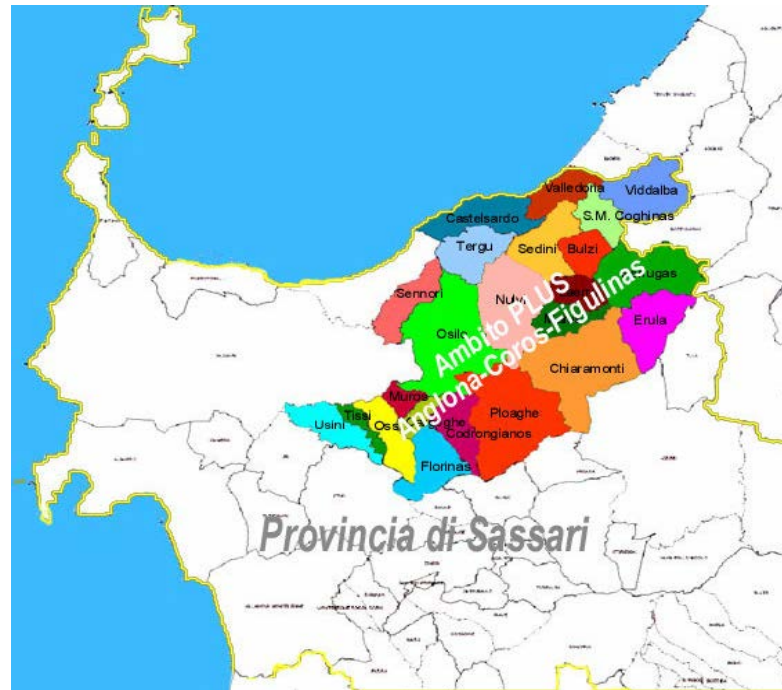

The essential nodes of "A wireless network"

- the Municipality of Osilo
 - other 18 municipalities of an "institutionalized" territory
 - 19 young people in distress
 - the training agency - Ass.ne CnosFap Sardegna
 - the teachers
 - companies
 - the transnational partner

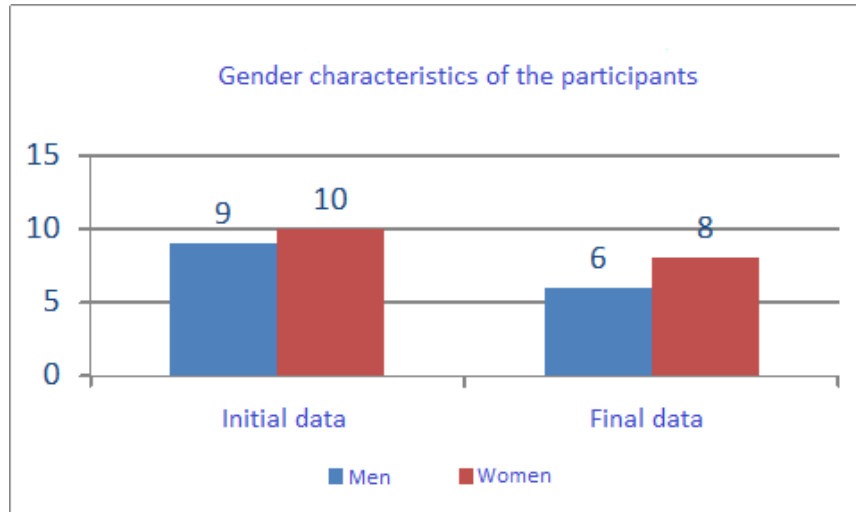

Who were the first "nodes" of the network?

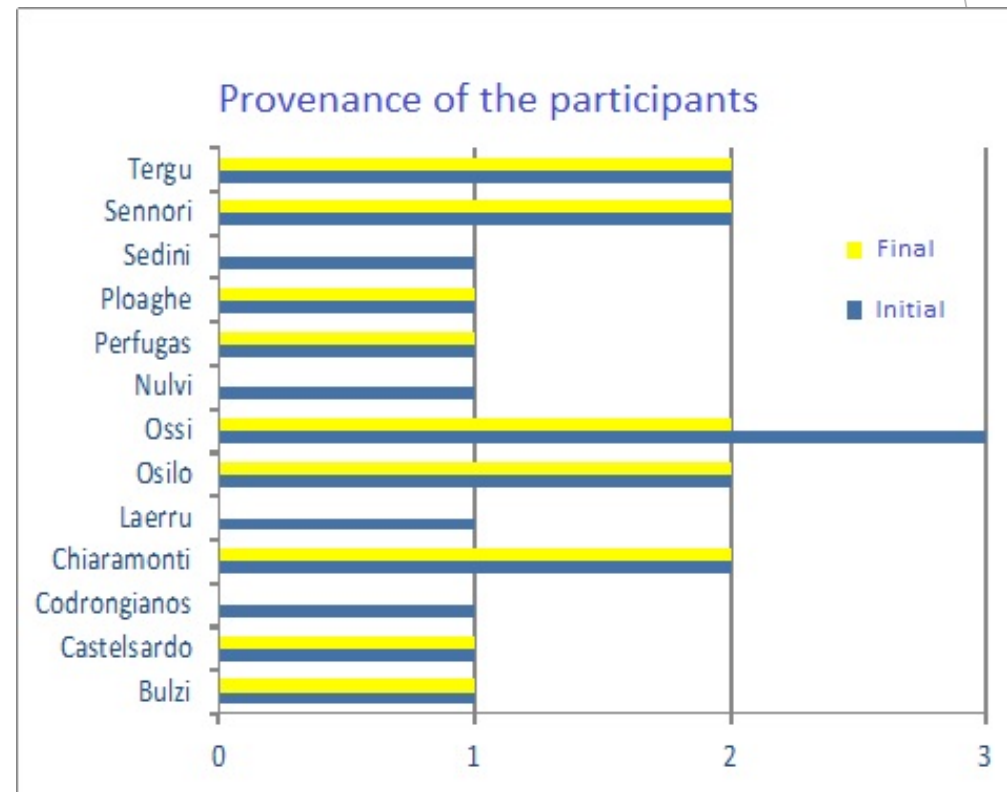

- ▶ 19 Municipalities of the Plus Anglona- Coros- Figulinas

Who were the first "nodes" of the network?

► THE YOUNGSTERS

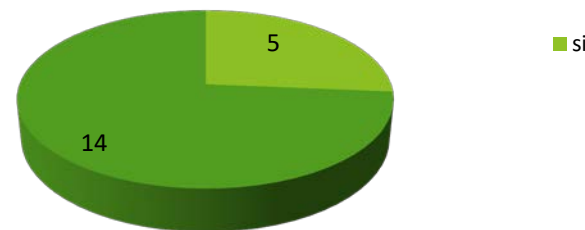

Critical issues

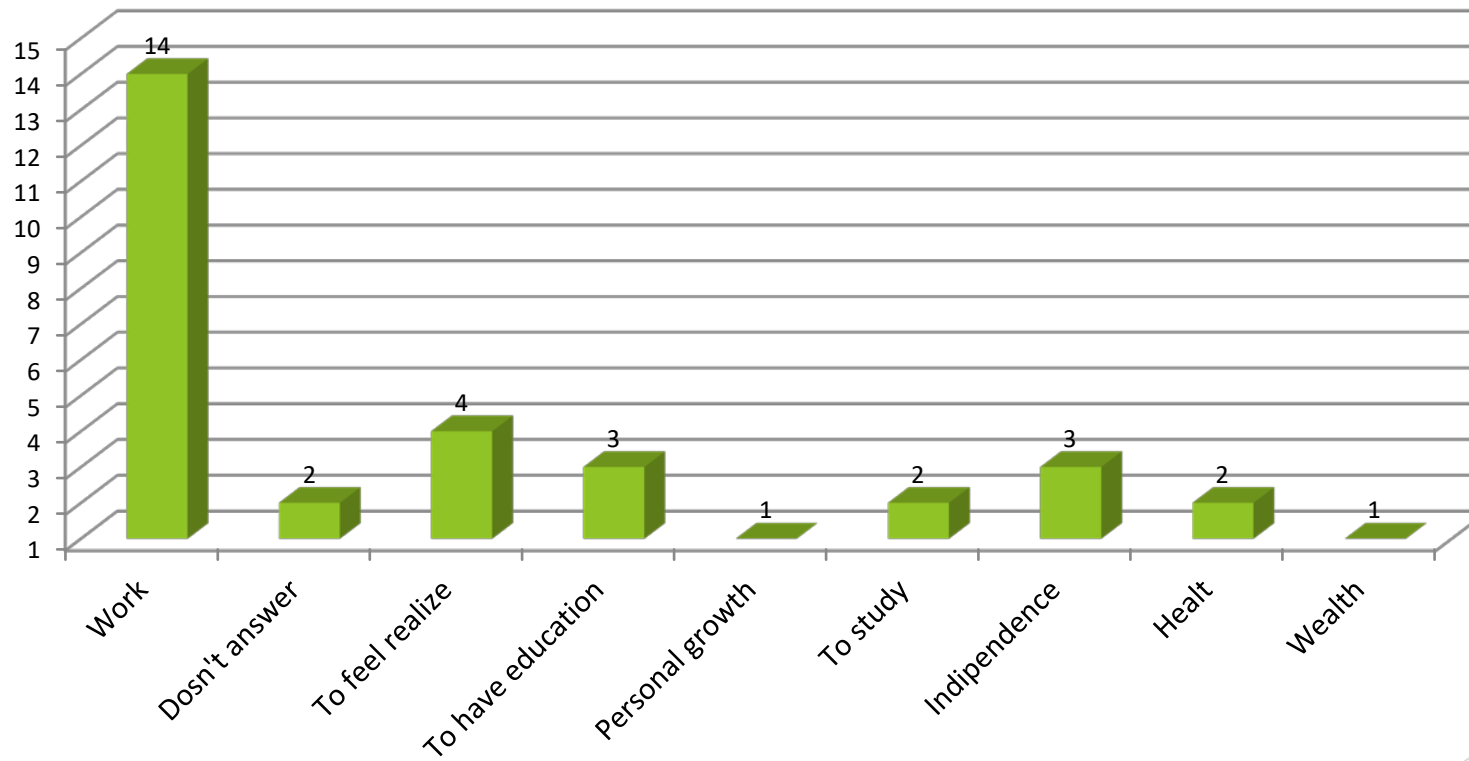

- 1) difficulty in involving all the municipalities in the network (selection phase: 13 municipalities out of 19 members)
- 2) age difference between the participants
- 3) previous school and professional experiences
- 4) "discomfort":
 - economic
 - social
 - employment

Have you ever worked in the field of PC or graphics?

A close look

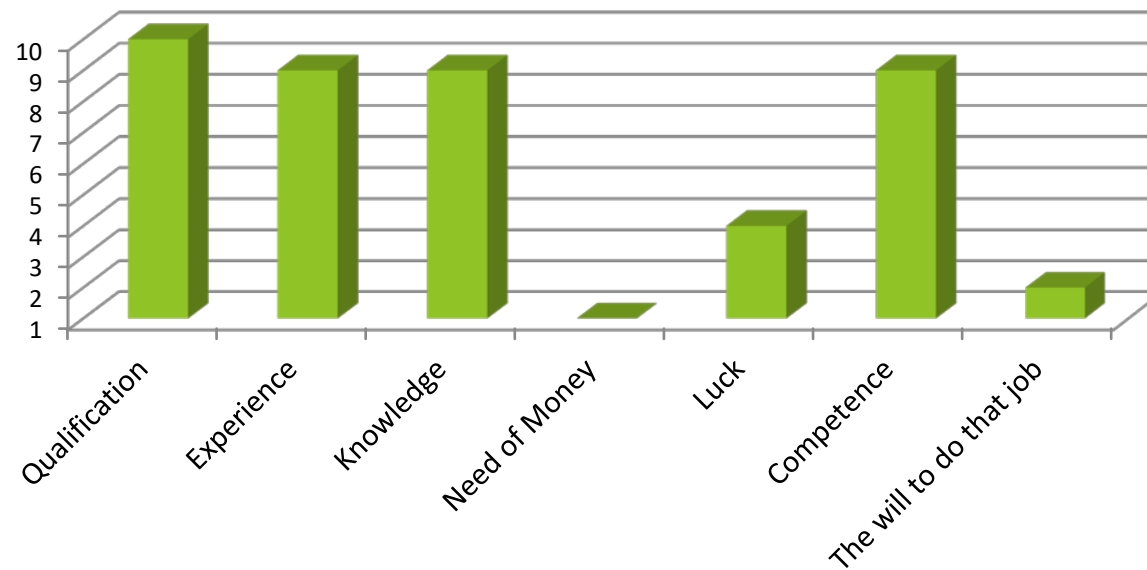

What are, today, in your opinion, your most important needs?

And again....

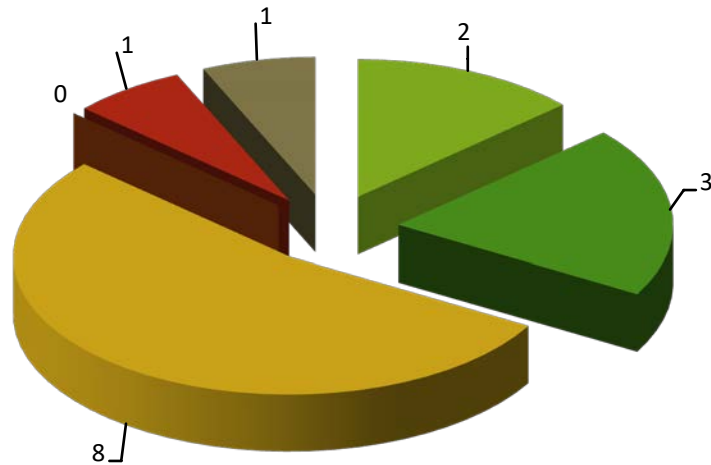

In your opinion, what is needed today to find a job?

Objectives of the participants

What are your expectation from this course?

- I'm interested
- It's usufull
- It's an oppurtunity
- Always usefull
- It's my dream
- It is relevant to my course of study

The internship and the transnational activities

11.28.2011 - Partnership-Stage Network
30.11 / 3.12.2011 - Exchange in Spain
17-19 July 2012 - The Spanish in Sardinia

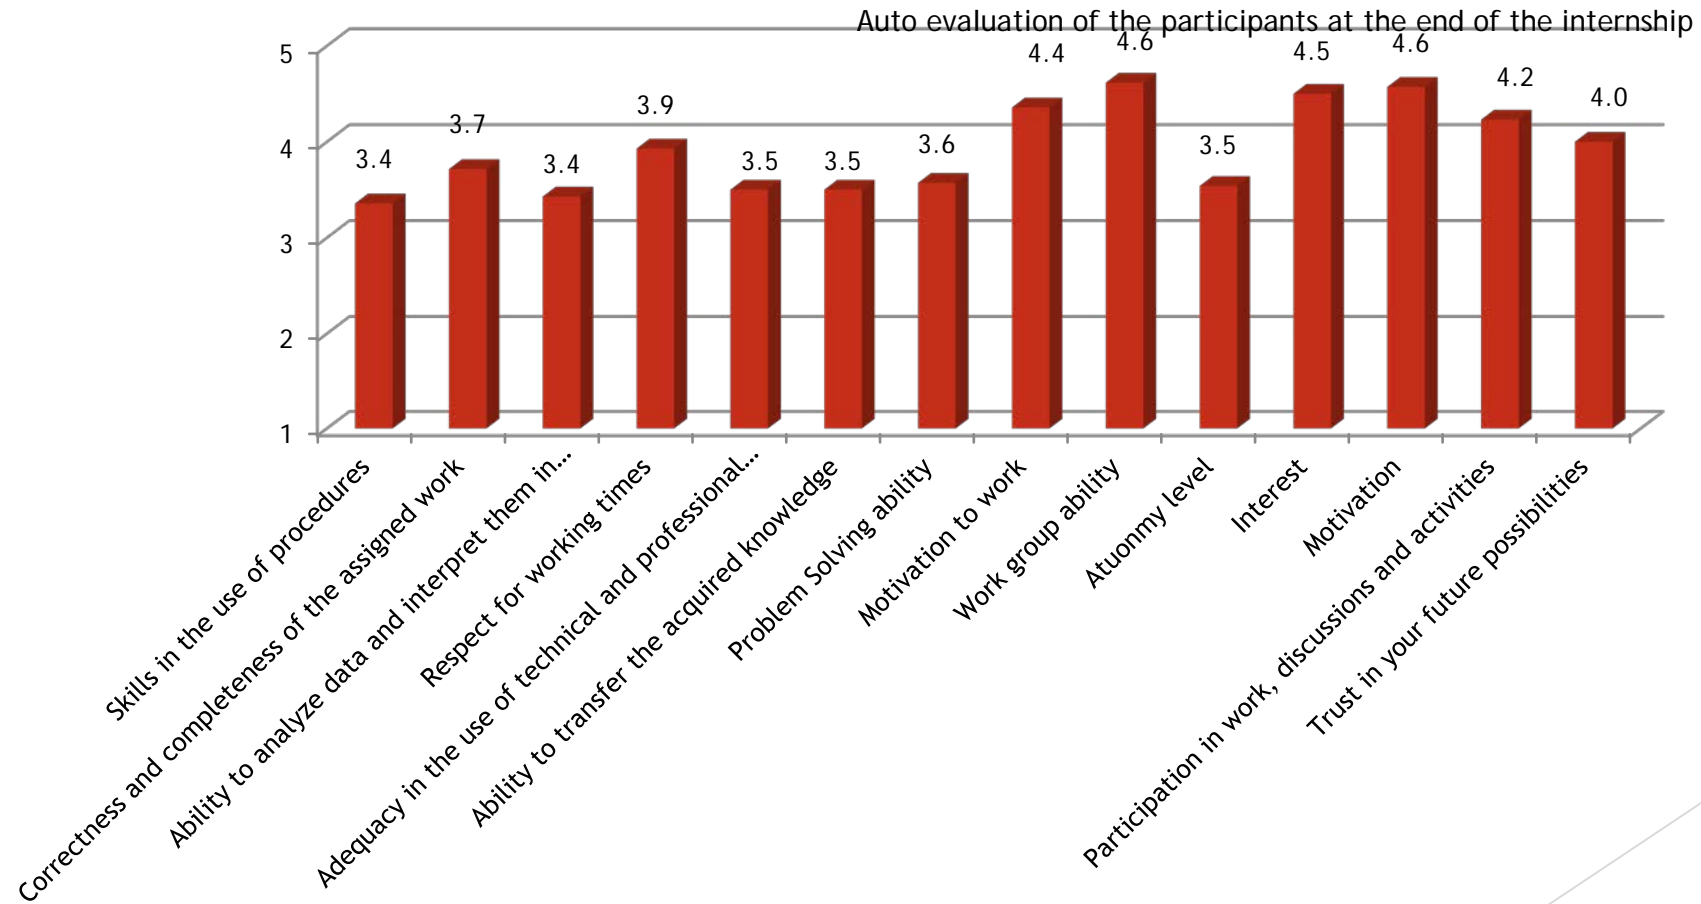

Objective of the project network: the network!

- activate new strategies;
- accept proposals
- reinforce connection nodes;
- share the project path

An example

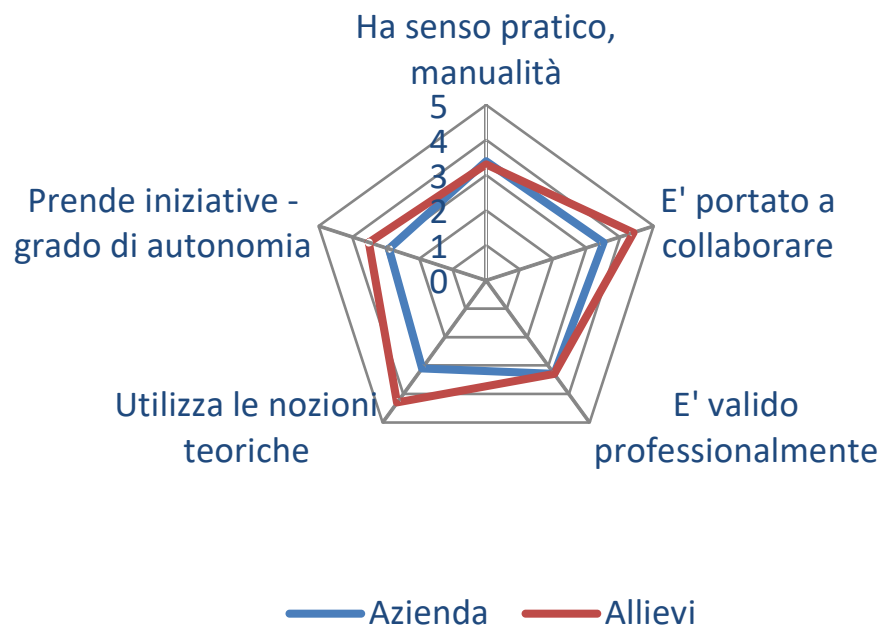

The professional and personal skills

Evaluation of the internship

Valutazione Stage

Transnational exchange

- ▶ - Meeting to acquire good practices to support entrepreneurship and employability of young people
- ▶ - Reflections on how to find work for disadvantaged groups in the Spanish market
- ▶ - Regulatory aspects of youth policy interventions

Activity monitoring

129 questionnaires were administered

- ▶ Motivational initial: 19
- ▶ pre summer break: 16
- ▶ pre Stage / students: 16
- ▶ pre Stage / teacher: 5
- ▶ 1st phase Exchange: 6 (of which 3 from Spain)

- ▶ Internship / students: 11 companies
- ▶ Internships / companies: 14
- ▶ End of internship/ course: 14
- ▶ Work grants / institutions: 5
- ▶ Work grants / companies: 9
- ▶ Total work grants: 14

From training to internship...to the world of work

- Trading capacity with companies
- Target / market-centered activities (no longer / only on training)
- Sense of professional "loss"
- Strong competition among fellows

Final results «a wireless network»

Occupation in the territory

Of 14 young people:

- 4 found a job (contract related to the course)
- 7 have developed employment opportunities
- 3 have good possibilities but must "mature" from a personal / professional point of view

The costs

- ▶ Funds of the Sardinian POR: € 216.000,00
- ▶ (16.000,00 for transnational activities)
- ▶ The project ended in the July 2012
